50	Craven	10.40%	99	Perquimans	0.00%
				Statewide Total	12.06%

*Percent need met was calculated using the sum of the average daily attendance (ADA) in July 2017 for all sites in a county divided by the number of students eligible for free and reduced price meals during the 2016-17 school year. ADA was calculated by dividing the number of meals served during the site's primary meal service by the number of operating days. Percentages may look the same for some counties due to rounding.
