48	Gaston	10.07%	98	Jones	1.94%
49	Alamance	9.80%	100	Camden	0.00%
50	Surry	9.79%	100	Perquimans	0.00%
				<b>Statewide Total</b>	<b>11.53%</b>

Percent need met was calculated using the sum of the average daily attendance (ADA) in July 2019 for all sites in a county divided by the number of students eligible for free and reduced-price meals during March 2019. ADA was calculated by dividing the number of meals served during the site's primary meal service by the number of operating days. Estimated percent need met for Polk County is based on August 2019 data as they did not serve meals in July 2019, however, their August numbers are not included in the statewide estimated percent need met as this represents only July 2019.

\* Percentages may look the same for some counties due to rounding.
